

# Bodycare Gummies

Nutritionally Complete

[www.blueworxwell.com](http://www.blueworxwell.com)

# The Silent Barrier to Recovery

...

“Thousands of hospitalized patients struggle to meet their daily nutritional needs—especially when „ they can’t finish traditional shakes like Ensure® or Boost®

“Our solution doesn’t replace those options—it completes them.”

- Many patients experience appetite loss, flavor fatigue, or GI intolerance
- Existing liquid supplements are excellent, but not always optimal alone
- BlueWorx™ nutrition gummies offer an easy, chewable alternative to help close the nutrition gap

# Who We Are: Trusted. Certified. Ready.

- **BlueWorx** is a US-based manufacturer of clinical-grade nutritional products designed to improve recovery outcomes for vulnerable hospital patients.

## Manufacturing Capability Highlight

Our Las Vegas facility supports large-scale production with batch consistency, custom packaging, and rapid turnaround, ideal for public hospital rollouts.

## Key Credentials

NSF Certified

cGMP Compliant

ISO 9001:2015 Certified

FDA-registered facility in Las Vegas, NV

# Our Product: Nutrition That Restores

➤ Targeted clinical nutrition for cancer, post-op, and malnourished patients.

## Key Product Types

### Gummies

A gummy with fat is a functional, patient-friendly way to deliver fat-soluble vitamins and other nutrients with optimal absorption—especially for those with compromised diets or digestive systems.

## Who IT Helps ?

- ✓ Chemo patients with low hemoglobin or poor nutrient retention
- ✓ Post-operative patients in recovery
- ✓ Malnourished patients, especially from underserved communities

# Clinically Proven to Improve Patient Outcomes

...

➤ **Hackensack Study:**  
Measurable impact in  
just 16 days.

“ We saw notable  
nutritional improvements  
in less than 2 weeks ”

— Clinical Dietitian,  
Hackensack Program

“ This formulation is ideal  
for our underserved  
patient populations ”

— Oncology Nurse  
Practitioner

 Hemoglobin levels improved by X% (insert real data if available)

 BMI increased among  
malnourished patients

 Patient adherence rose due to  
taste and ease of use

 Improved treatment readiness  
in under 3 weeks

# Built for Public Hospital Impact

Tailored for the patients, budgets, and realities of New York's public health system.

## Supports underserved communities

Designed to address nutritional gaps in low-income, Medicaid-supported patients.

## Improves outcomes

Helps reduce readmissions, speeds recovery, and supports treatment readiness.

## Aligned with ASPEN & public nutrition standards

Matches clinical guidelines for enteral and supplemental nutrition.

## Budget-aligned

Competitive pricing designed for Medicaid-driven institutions.

## Easy implementation

Flexible formats and packaging suited for hospital workflows

# Flexible, Scalable & Support-Ready

...

 <b>Natural Ingredients</b>	<i>No artificial flavors or colors</i>	Includes artificial ingredients	Includes artificial ingredients
 <b>Protein</b>	<i>Yes</i>	Yes	Yes

## Summary of Key Differentiators:

- Immune and Digestive Support:**  
 Blueworx Gummies uniquely contain Reishi Beta Glucans offering immune modulation, anti-inflammatory, and gut health benefits.
- Nutrition via Eating vs. Drinking:**  
 Solid gummies provide better satiety, improved nutrient absorption, and maintain digestive health compared to liquid nutritional drinks.
- Functional Ingredients:**  
 Blueworx Gummies are formulated with superfoods and bioactive compounds that serve functional roles—supporting immune modulation, inflammation reduction, and micronutrient absorption. Unlike Ensure and Boost, which focus primarily on macronutrient delivery (calories, protein). Making BlueWorx a perfect compliment to these liquid drinks.

\* In BlueWorx, using Collagen supports gut integrity, skin, joints, and connective tissue, while Ensure's protein provides a complete amino acid profile for systemic protein needs. Used together, they offer complementary, not redundant, benefits.
