Dusted In KIEF

Indoor grown, strain specific, dry-shifted trichomes

100% Tobacco Free Wrap

Our innovation based on the composition of a natural leaf, slow burning & smooth

Glass Filter

A consistent and smooth draw from start to finish

PAK POD - 2 GRAM DISPOSABLES

Packspods by Packwoods is a new product that offers an unparalleled, high-quality experience to users. This product is essentially a disposable vape pen that contains 2 grams of top-notch live resin, making it a potent and flavorful option for those who enjoy the effects of THC.

Benefit of Packspods by Packwoods is its taste and potency. Because the live resin has been carefully selected and processed, each hit delivers a rich and complex flavor profile that is sure to satisfy even the most discerning cannabis enthusiasts. Additionally, the high concentration of THC delivers a powerful and long-lasting effect that is perfect for those looking for a strong and enjoyable high.

MINI BURST JOINTS

Burst Infused by Packwoods is a premium product that contains five high-quality joints in one convenient package. Each joint is infused with exceptional ingredients and carefully crafted to deliver an unparalleled smoking experience.

In addition to the quality of the strains used, Packwoods also prioritizes the use of high-quality rolling papers. The joints are expertly rolled to ensure a consistent burn and smooth smoking experience.
